Waste Disposal Site Receiving Area Improvements

Construction work at The Blue Mountains Landfill Site, off Grey County Road 13 will begin in May, 2010. All works will be contained within the Site property and will consist of drainage improvements along the entrance lane and land improvements in the materials receiving area just north of the scale house.

The Town will be improving these areas for the benefit of Site patrons, increased Site safety and increased waste diversion. Construction on the Site is expected to start the second week of May, 2010. The Site will maintain the regular hours of operation and a temporary receiving area will be utilized to the east of the construction area.

Construction is expected to be complete by late June 2010 and the new receiving area will be opened for use shortly after construction is complete.

If you have any questions or concerns during the construction project please contact: Jeffery Fletcher, Manager of Solid Waste and Environmental Initiatives, Town of The Blue Mountains, jfletcher@thebluemountains.ca or call 519-599-3131 extension 238.
