TOWN OF THE BLUE MOUNTAINS  
PER: \_\_\_\_\_

Dear Mayor McKean and Members of Council of the Town of the Blue Mountains,

On behalf of the membership of the Beaver Valley Branch of the Royal Canadian Legion we write to you for consideration of financial support towards the purchasing of a used portable sound system to be dedicated for use at our annual Remembrance Day services held in Thornbury/Clarksburg and Ravenna.

The Royal Canadian Legion sees it as a duty and a great privilege to host annual services of remembrance to honour those from our community and country who have committed their lives to the service and freedom of Canada.

For the past number of years Branch 281 has been thankful to borrow a portable sound system from St. George's Anglican Church in order to host Remembrance Day.

This year we are intending to purchase a sound system of our own that can be used for community events, such as Remembrance Day, that are hosted by the Royal Canadian Legion. This way, we can be solely responsible for maintaining and setting up audio for community events which would help our process of both organizing and implementing these services.

Consistent with our value of good stewardship and community support we have sourced a second hand sound system that meets the requirements for both the Thornbury/Clarksburg and Ravenna cenotaph venues from Mike Wright at Elevantus, a local sound equipment company. We are also pleased to share that Mike has greatly discounted the cost of this equipment as his own way of supporting the work of Branch 281. We include these details for your consideration.

*"They served till death! Why not we?"*

Our appeal to the Town Council of the Blue Mountains is for any contribution of financial support that can be directly applied towards this purchase.

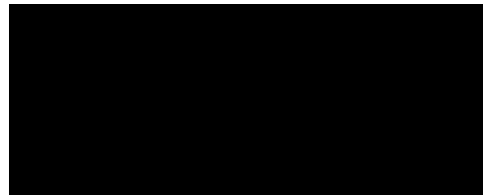

Thank you for your consideration of this request.

Thank you for helping us host our annual Remembrance Day services for the Town of the Blue Mountains.

With appreciation,

Comrade Andy Weldrick  
Branch 281 President

The Rev. Grayhame Bowcott  
Branch 281 Chaplain

# EUROPOWER PMP2000

800-Watt 14-Channel  
Powered Mixer with  
Multi-FX Processor

- Ultra-compact 2 x 350-Watt stereo powered mixer (800 Watt bridged mode)
- Ultra-Low Noise ULN design, high headroom and ultra-transparent audio
- 14-channel mixer section features 6 mono and 4 stereo channels
- Studio-grade 24-bit stereo FX processor with 100 awesome presets including reverb, chorus, flanger, delay, pitch shifter and various multi-effects
- 9 high-quality IMP "Invisible" Mic Preamps with switchable +48 V phantom power for condenser microphones
- Effective, extremely musical 3-band EQ, switchable Pad and Clip LEDs on all mono channels
- Dual 9-band graphic EQ allows precise frequency correction of monitor and main outputs
- Selectable stereo (main L/R) or double mono (main/monitor) amplifier operation mode
- Multi-functional stereo Preamp outputs and stereo Power amp inputs for added flexibility
- 3-Year Warranty Program\*
- Conceived and designed by BEHRINGER Germany

The amazing PMP2000 Powered Mixer packs tremendous power (2 x 350 Watts stereo or 800 Watts in Bridged mode), while maintaining an incredible power-to-weight ratio. The 14-channel PMP2000 features 9 built-in, high-quality IMP "Invisible" mic preamps, 4 stereo channels, a studio-grade 24-bit Multi-FX processor with 100 awesome presets including studio-class reverbs, delays, pitch shifter and various multi-effects, plus dual 9-band graphic EQs, for the ultimate in high-quality sound and feedback-free performance.

# ELX

PASSIVE

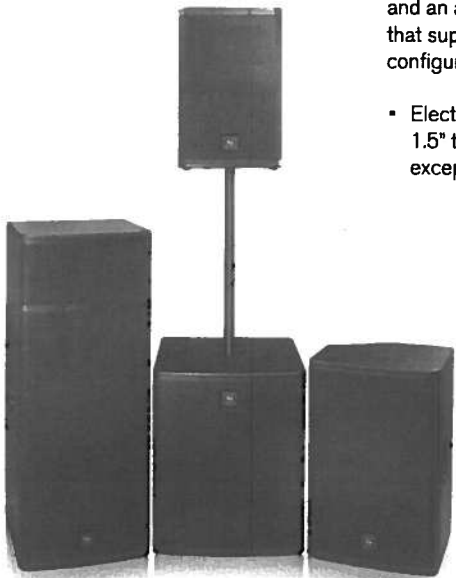

SERIOUS SOUND. SIMPLE SETUP.

## ELX PASSIVE Loudspeakers

The ELX series includes four versatile solid wood passive cabinets — three loudspeakers, including a formidable dual-15" configuration, and an acoustically matched 18" subwoofer that supports pole-mounted or stacked configurations.

- Electro-Voice-engineered woofers and 1.5" titanium compression drivers provide exceptional audio quality and reliability.
- Lightweight materials, balanced design, and ergonomic handles for convenient transport, set-up, and load-out.
- Stylish-yet-rugged 15-mm plywood construction with textured finish says "serious gear" on any stage.
- Designed to pole-mount or stack with ELX subwoofers.
- Built-in 60-degree monitor angle on 12" & 15" two-way system.

## ELX-112

12" TWO-WAY PASSIVE LOUDSPEAKER

The versatile ELX-112 loudspeaker is a compact, powerful choice with real stage presence, for sound reinforcement and stage monitoring applications.

---

12" woofer and 1.5" high-frequency titanium compression driver

---

55 Hz – 20 kHz frequency range

---

94 dB SPL sensitivity;  
132 dB max SPL Half Space

---

250 W continuous and 1000 W peak power handling

---

Rugged wood cabinet pole mounts or stacks with ELX subwoofers

---

35.27 lbs | 16.00 kg

---

23.90" x 14.25" x 13.39" |  
607mm x 362mm x 340mm (H x W x D)
