

STAFF REPORT: Infrastructure and Public Works

REPORT TO: Committee of the Whole
MEETING DATE: June 6, 2016
REPORT NO.: CSPW.16.077
SUBJECT: 2016 DWQMS Management Review Outcomes
PREPARED BY: Meg Boyd, Compliance & Efficiency Coordinator

A. Recommendations

THAT Council receive Staff Report CSPW.16.077 entitled “2016 DWQMS Management Review Outcomes” for their information.

B. Background

As part of the Municipal Drinking Water Licencing Program, the Town is required to establish a Drinking Water specific Quality Management System (QMS) based on the requirements set out in the Drinking Water Quality Management Standard (DWQMS).

The DWQMS requires the Town to have an Operational Plan detailing how the Town is complying with the PLAN, DO, CHECK and IMPROVE components of the DWQMS. The Town’s Operational Plan is comprised of 21 Elements. Element # 20, entitled “Management Review” outlines the requirements and processes involved in performing the Town’s QMS Management Review.

Town Council is considered the system Owner for the purpose of the DWQMS. The DWQMS requires that the outcomes of the Management Review be reported to the Owner (Council). The purpose of this report is to communicate the outcomes from the 2015 Management Review to the Owner and to update the Owner on the status of all outstanding action items rising from the previous Management Reviews.

As Council has the overall responsibility and authority to ensure the Town meets all legislative and regulatory requirements and provides infrastructure and QMS resources as required, it is imperative that this type of information is provided to Council for review.

Management Review

Element # 20 of the Town’s Operational Plan requires that a Management Review of the Town’s QMS be conducted every 12 months. These reviews are to be used to evaluate the continuing suitability, adequacy and effectiveness of the QMS.

On May 6, 2016, a Management Review was conducted by the Town’s Chief Administrative Officer, Director of Infrastructure and Public Works, Manager of Water & Wastewater Services, Water Supervisor and Compliance & Efficiency Coordinator.

The DWQMS requires that the following items be assessed during the management review:

1. Incidents of regulatory non-compliance
2. Incidents of adverse drinking water tests
3. Deviations from critical control point limits and response actions
4. Efficacy of the risk assessment process
5. Results of internal and third party audits, and corrective action reports
6. Results of relevant emergency response training
7. Operational performance
8. Raw water supply and water quality trends
9. Follow-up on actions from previous management reviews
10. Status of management action items (if any) identified between reviews
11. Changes in resource requirements, infrastructure, process, personnel or regulations that could affect the QMS
12. Resident water quality concerns
13. Resources needed to maintain the QMS
14. Results of the infrastructure review
15. Operational Plan currency, content and updates, and
16. Staff suggestions

The Quality Management System Representative prepared an information package, including all of the above noted items that was reviewed at the Management Review meeting.

A complete listing of the action items arising from the meeting has been included as Attachment # 1.

C. The Blue Mountains' Strategic Plan

The acceptance of this Report by Council furthers the Town Strategic Plan Goal # 5 "Ensure that our infrastructure is sustainable."

D. Environmental Impacts

None

E. Financial Impact

None

F. In Consultation With

None

G. Attached

1. Attachment # 1 – Summary of Action Item from 2016 Management Review

Respectfully submitted,

Meg Boyd
