

Committee of the Whole
December 5, 2016

The Agricultural Advisory Committee is requesting that Council begin the process to reopen the Clendenan bridge on the 10th line. This has been a very valuable and critical artery for the community as a whole and in particular the agricultural community to transport their equipment and farm produce. Presently this traffic is redirected through the residential area of Clarksburg. We understand that there was a bi-annual bridge assessment done by Consulting Engineers and it was indicated to us that a deficiency was identified resulting in its closure. We are asking that the bridge be repaired and reopened as soon as possible. Members of the Agricultural Advisory Committee are asking to speak with council in regard to this request.

James McKinlay
Chair Agricultural Advisory Committee
