Invitation to attend a
PUBLIC OPEN HOUSE
on

CULTURAL HERITAGE LANDSCAPES

The Town of The Blue Mountains is committed to maintaining and enhancing its agricultural, rural and tourism industries. As a result, development needs to be designed and sited in a manner which enhances the cultural, visual and ecological qualities of the environment.

The Town has recently embarked on a process to develop a Renewable Energy strategy which is considering appropriate locations for wind energy facilities and the formulation of an appropriate planning policy and approval framework. As large scale Wind Energy Facilities (WEFs) can potentially impact cultural heritage landscapes the Town has retained a team of consultants to prepare a **Cultural Heritage Landscape Study** as part of the overall renewable energy review.

You are invited to attend a Public Open House to meet staff and the consultant team, share your knowledge and understanding of the Town of The Blue Mountains and assist with the identification of potential cultural heritage landscapes.

Date: Thursday, July 24, 2008
Location: Beaver Valley Community Centre
Time: 6:30 pm to 9:00 pm
