

STAFF REPORT: Financial Services

REPORT TO: Council
MEETING DATE: October 15, 2008
REPORT NO.: FS.08.49
**SUBJECT: 2009 Fees and Charges for
Certain Municipal Goods and
Service**
**PREPARED BY: Ruth Prince, Manager of
Revenue**

A. Recommendations

THAT Council does hereby receive Staff Report FS.08.49 "2009 Fees and Charges for certain Municipal Goods and Services."

AND THAT Council authorize staff to move forward with a public meeting to review the proposed fees and charges on November 24, 2008.

B. Background

Authority – Municipal Act, 2001, S.O. 2001, c.25

Without limit to sections 9, 10 and 11, sections 391(1) of the Municipal Act, 2001 authorizes a municipality to pass a By-law to impose fees or charges on persons, (a) for services or activities provided or done by or on behalf of it; (b) for costs payable by it for services or activities provided or done by or on behalf of any other municipality or any local board; and (c) for the use of its property including property under its control.

Authority – Planning Act, R.S.O. 1990, c. P.13

Section 69 (1) of the Planning Act, R.S.O. 1990, authorizes the council of a municipality, by by-law, and a planning board, by resolution, may establish a tariff of fees for the processing of applications made in respect of planning matters, which tariff shall be designed to meet only the anticipated cost to the municipality or to a committee of adjustment or land division committee constituted by the council of the municipality or to the planning board in respect of the processing of each type of application provided

By-law No. 2000-90, being a by-law for the imposition and collection of fees and charges for certain municipal services and activities, was passed November 6, 2000. Staff reviewed By-law No. 2000-90 to determine if any fees should be amended. Consideration was given to end user affordability, neighbouring municipal comparisons and community benefit when reviewing the fees and charges.

As part of the operating budget process, departments have reviewed their respective fees and charges. Financial Services has coordinated this review and prepared the proposed by-law for Council's consideration. The 2009 Fees and Charges for Certain Municipal Goods and Services for the Town of The Blue Mountains are attached.

The various fees and charges will be in effect upon the passing of the By-law by Council.

A consolidated comprehensive list of all user fees, licensing fees and service charges will be available on the Town's web site, subject to the passing of the Fees and Charges By-law.

Listed below are the proposed changes to the Fees and Charges By-law:

Clerk/Administration

A fee of \$50.00 for a request for a Closed Meeting Investigator has been added to the by-law. This fee will be refunded if a Closed Meeting Investigator verifies the request.

Financial Services

The fee for returned cheques has increased from \$20.00 to \$35.00. Time spent by staff in processing and collecting returned cheques has initiated this increase.

Recreation

A general 5% increase was applied across the board to address escalating maintenance costs to maintain appropriate civic standards in the operation of Town facilities. The Recreation Committee has endorsed the recommended increases.

Due to the Capital upgrades that the facility requires, a "Harbour Financing Strategy" was passed by the Recreation Committee and approved by Council in 2007. This strategy allows for an annual increase of \$2.00 per foot on seasonal dockage.

Engineering and Public Works

Entrance Permits have increased from \$100 to \$125.00. Time spent by staff in processing and inspecting exceeds the cost of the permit. The Municipal Land Works Permit Fees has increased from \$100 to \$200.00. This permit is to ensure that anyone that is working on municipal land has the appropriate

insurance coverage and comply with the Health & Safety requirements. Staff time to administer and ensure compliance has increased the permit fee. The security deposit has been changed from a flat fee for all work completed, to a deposit based on the estimated cost of the works.

Fire Services

False fire alarms are not only expensive in terms of the cost to the Fire Department resources; repeated false alarms can become a serious threat to life safety because of the complacency which can result from repeated false alarms. The proposed changes to the application of the false alarm fee will make these charges a useful tool ensuring that property owners maintain their alarm systems in proper working order, rather than just a way of recovering the costs involved.

By-law 2000-90 imposed an hourly fee of \$30.00 for emergency response services and it is recommended to increase to \$35.00 per hour due to wage increases.

Planning

In May of 2008 By-law No. 2008-42 was adopted for Fees and Service Charges related to processing planning application and related engineering and public works services. Minor changes to the fees are proposed. The planning opinion letter will increase from \$50.00 to \$60.00. Time spent by staff processing the letters has initiated the increase. A security deposit for minor Zoning By-law Amendment applications has been changed from \$2,500 to zero. A security deposit for PEER Reviews, for any supporting studies, with a minor Zoning By-law amendment application is rarely required.

Municipal Comparisons

A comparison of similar-type fees in other municipalities is attached to this report where possible.

C. The Blue Mountains' Strategic Plan

Providing a strong, well managed municipal government

D. Environmental Impacts

Supporting Environmentally sound decisions

E. Budget Impact

The revenue generated through the fees and charges is reflected in the 2009 proposed budget.
