

Blue Mountain city council,

I would like to attend the council meeting on December 19 2016 to ask for an approved placement for my new Business sign " niche"

I have forwarded 2 photos that show the sign will not be seen on the sidewall of building as suggested to me due to the town banners blocking the area.

I considered all areas of my building as to where the best location would be for it , not only for visibility but also for safety reasons considering the last sign put up by the previous owner in that location was ripped away from the building as this location gets hurricane like winds constantly, this is why I chose the Main Street location beside and to the right of my Main Street entrance

Sincerely ,

Candis McDonnell

Building Owner & Business owner
