

STAFF REPORT: Recreation

REPORT TO: Council
MEETING DATE: Aug 14, 2008
REPORT NO.: DOR 08 36
SUBJECT: Off Leash Parks
PREPARED BY: Shawn Everitt, Director of Recreation

A. Recommendations

THAT Council receive Staff Report DOR 08 36 "Off Leash Parks" and approve the future use of Town Lands on Peel Street in the Thornbury Area in 2009 and Hamlet Road in the Swiss Meadows area in 2010 for off leash parks; and

THAT Council give staff direction to include park development cost as well as operational cost and revenue generation options in 2009 and 2010 capital and operational budgets proposals

B. Background

On June 26, 2008 Staff presented a report to Council highlighting two locations, as potential locations for off leash areas within the Town. Staff has continued to have ongoing discussions with Mr. Norman Patterson, who represents a delegation that was before the Recreation Committee requesting the development of a Dog Park or Off-leash area. In 2007, the Recreation Committee approved the use on a trial basis of one of the existing baseball diamonds as a leash free zone. This project would allow staff to determine the use as well as maintenance requirements of such a permanent facility. This project will begin after appropriate gates have been installed to ensure dogs are not exiting the area without the owners while other dogs are entering.

At the June 26, 2008 Council meeting, staff had identified that proper signage and fencing would be required at locations and would be proposed in the 2009 capital budget process. Other enhancements on properties noted could include benches, garbage containers, shelters as well as potential trailhead parking and linkages in the future.

As part of the final design and development of these areas, noxious weeds and poison ivy control will be considered and potentially be signed or removed to eliminate any harmful conditions that may be present for both animal and humans alike. The success and sustainability of these off leash parks will be realized by having the users maintain the facility and respect poop and scoop practices.

Staff also noted that Off Leash Parks will require rules and policies to protect the Town as well as dog owners. Signs must be visible and approved by the Town's Insurance supplier and detailed in the Parks Use By-law. Proposed rules are contained in attachment 1 Off Leash Park Policy. These rules have been developed and used by other Towns, Cities that offer similar facilities and have noted successful operations of these facilities.
