

Dear Shawn,

I'm sending this letter as a request to get the parking lot on the 10th line plowed out in the winter. The parking lot is known as the "Kolapore Uplands Parking Lot" and currently it is not plowed out.

As a business, we are out to this area on most weekends to do caving with clients. However, we are not the only ones who use this area. There are plenty of other people who come out to snowshoe and cross country ski throughout the Kolapore Uplands.

Since the parking lot is not plowed out, people park on the side of the road, which as I'm sure you are aware, is not safe. I have seen people with children and dogs out on that road with cars going by making it unsafe for everyone.

The other hindrance with the cars parking on the road is for the road plow going by. I'm sure it makes their job a little more difficult having to go around the cars parked on the road instead of in a parking lot.

If it were only us using the area I wouldn't make such a big deal of it. But we see many people going up there in the winter and we just want to make sure nobody gets hurt. As I'm sure you know, we lost a friend on that road last year and we certainly don't want anyone else to have to lose a loved one of theirs.

I'm attaching some photos I took of other people who have parked on the road so you can see it's not just us.

I look forward to hearing back from you.

Sincerely,

Jennie Elmslie
