

15th May 2010.

Dear Shawn,

Please can we have a playground at the tennis courts on Blueski George Crescent at Nipissing Ridge?

Many of us have moved here in the past few years. Some children go to different schools so we don't have a chance to meet each other. We think that if there was a playground then we would have a place where we could meet other kids from the area and all play together instead of having to always be at one of our houses. There are lots of kids in the area, both full and part time, that we have not met yet because there is no common meeting area for us.

A playground would also be a place where we could exercise. We could climb, run, hang and have fun. Many of the older residents have grandchildren that visit and a playground would be a place where they come and play with us.

Some of our parents like to play tennis and at the moment there is nothing for us to do while they play. If there was a playground we could have something to do when they play tennis and our parents would know where we were, and that we were safe.

There are children in the area that are from ages 2 to 18. Please can we have equipment that can be used by all ages?

It would make a better community if the park at Nipissing Ridge could be used by grandparents, parents AND children.

Please can you help us?

Sincerely,

The Children of Nipissing Ridge.
