Terry, Krista has already done the package for the November 10th I & R meeting. The November 24th meeting is cancelled so this would not go until December 8th, is that OK?

Hi Terry,

Just read in the local rag you will be taking down the willows.

What will I do in those mid summer line squalls when I used to rush over to get people away from those damn trees?
(True story)

About time, always scared me when the winds picked up, having much experience in risk management.

As always you and the lads and lassies are doing a great job keeping our town looking beautiful.

Cheers

Bruce & Janet
