

NOTTAWASAGA VALLEY CONSERVATION AUTHORITY HIGHLIGHTS FROM BOARD MEETING ON APRIL 9TH, 2010

THIRD PARTY REVIEW OF NVCA PLANNING AND CUSTOMER SERVICE TO BE UNDERTAKEN

At the end of a workshop where NVCA programs were reviewed for mandate relevance and effectiveness of delivery, board members concluded that a third party review of the NVCA planning process and customer service is to be completed. The review should be conducted by an external company that understands a conservation authority's role in planning services. An RFP will be issued outlining the parameters of the review at a cost not to exceed \$15,000. A timeline for the review was not specified.

Don Pearson, General Manager of Conservation Ontario was on hand to review the legislative/regulatory framework of conservation authorities in Ontario and their important role in conservation, restoration, development and management of our natural resources. Also, NVCA Directors reviewed each program area with the board.

Future Meetings and Events

Executive Committee meeting - April 23
NVCA's 50th anniversary celebration – May 1
Board meeting– May 14
