THE TOWN OF THE BLUE MOUNTAINS
PRICE’S DEVELOPMENT
Sanitary Sewer Extension and Storm Water Diversion PROJECT

NOTICE OF DESIGN COMMENCEMENT

The Town of The Blue Mountains has engaged Greenland Consulting Engineers Ltd. to provide engineering services for the final design and project management for sanitary sewer installation within the Price’s Development (Study Area), and stormwater management improvements along Grey Rd. 119 as identified in the preliminary design stage of this project. **Figure 1** below identifies the general project area (Red - Sanitary Works, Green - Stormwater Works).
The purpose of this Final Design Project will be to complete final design packages of the proposed Sanitary Servicing solution (conventional gravity collection sewer system) and Drainage solution (peripheral drainage improvements and culvert improvements) previously identified for the Price’s Subdivision in the Preliminary Design Report for Wastewater Servicing and Stormwater Drainage Improvements (Greenland, 2018).

Project developments related to the above referenced Sanitary Servicing and Drainage solutions, along with the physical construction works necessary to implement, will also be communicated to the affected public as part of the Public Engagement Plan being developed for the Project.

In the next few weeks there will be various work crews in the area undertaking field investigations to collect valuable information. Residents can expect surveyors collecting ground elevations and confirming connections to the individual homes, along with a drill rig present within the Study Area that will be used to collect detailed soils information. Please note that this drilling activity will be completed on Town property only.

Public Consultation is also vital to the success of this Project. We want to ensure that anyone interested in this project has the opportunity to provide input. Therefore, various forms of public consultation will take place over the course of this Project to receive public input and comments. Public Information Centres (PIC) will also be held to present the 95% Drainage & Wastewater Servicing Design documents prior to construction in order to receive valuable public input. A notice of this PIC will also be published in advance of the meeting.

Project updates and notices will be: emailed to residents requesting notification; posted on the Town’s website (http://www.thebluemountains.ca); to keep the public informed as the Project progresses. Residents and interested parties are encouraged to regularly visit these websites to find out more about the Project and to provide input and feedback on the required works and ultimate project goals.

If you have any questions or concerns, and/or would like to be added to the study mailing list, please contact one of the study representatives listed below.

**Brad Parker P.Eng., Project Manager**
Greenland Consulting Engineers
120 Hume Street
Collingwood, Ontario L9Y 1V5
Tel: 705-444-8805
Email: bparker@grnland.com

**Mike Campbell, C.E.T. Project Manager**
Town of The Blue Mountains
32 Mill Street, P.O. Box 310
Thornbury, ON N0H 2P0
Tel: (519) 599-3131
Email: cc@thebluemountains.ca

Comments and information regarding this Project are being collected in accordance with the Municipal Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments received will become a part of the public record. For further information please contact the Town.
QUESTIONNAIRE

**This survey is important and may lead to lower cost of construction and ultimately lower costs for each homeowner**

Contact Information:

<table>
<thead>
<tr>
<th>Name:</th>
</tr>

<tbody>
<tr>
<td>Address:</td>
</tr>
<tr>
<td>Phone:</td>
</tr>
<tr>
<td>Email:</td>
</tr>
</tbody>
</table>

If the answer to the first Question is no, the survey is complete, if yes, continue to Question 2.

Questions (Circle Answer):

1. Does your Residence have a Basement and/or crawl space?  
   - Yes / No

2. If Yes, does a sanitary drain exist within the Basement and/ or Crawl Space.  
   - Yes / No

3. If Yes, does a sewage pump exist to the septic system?  
   - Yes / No

4. If Yes, are you willing to allow the Design Team to quickly inspect and confirm the above.  
   - Yes / No

PLEASE FILL OUT AND RETURN TO BOTH CONTACTS:

Brad Parker, P.Eng  
Greenland Consulting Engineers  
120 Hume St., Collingwood, On. L9Y 1V5  
Tel: 705-444-8805
