If it is the MNRF that delegates ANSI supervision to the Town and **both** the MNRF District Planner and The District Manager **have no issues with walking and passive uses** per their emails below Could this issue simply be resolved by staff adding signage at the beachfront access ends of the underground outlet carrying out the attached Council recommendation more broadly. A sign as attached exists in the park but none to the East or West of the outlet.

Mr. Vandergust,

Further to your request below, the ministry's position is that passive uses (e.g. walking, swimming, windsurfing, surfing, fishing, etc.) do NOT pose potential impact to the integrity or function of the ANSI. Given the sensitivity of the ANSI, we do NOT recommend development or non-passive activities that removes or obstructs the bedrock units and that could pose an impact (i.e. construction of shoreline erosion features such as groynes, docks, sea walls, marina facilities, boathouse, anchors/mooring blocks, motorized use, etc).

Please let me know if you have any further questions or require clarification.

Thanks,

Shawn

NOTE: the slide and comment that MNR recommended limited public access... they are planning a fence to restrict public access to the West of the driveway from Ellis Drive..to direct public to the Esat toward the Park.. but that is splitting the ANSI and inconsistent. Surely passive uses such as walking, beach use,swimming, windsurfing ,surfing and fishing even if it involves during current high water walking on the broken shale ought to be allowed.. machinery, ATV such uses should be controlled of course. Obviously once the water recedes no one will choose to walk on the broken shale once the dry level shale re-appears.

PLEASE: advise if you can comment early this week..it goes to Committee for approval which includes this fence etc June 4 next.
Thanks/ Vic

Good afternoon Mr. Vandergust,

On behalf of Interim CAO Shawn Everitt I provide the Delphi Point ANSI Management Plan Presentation to Council from May 14, 2018.

This presentation has been uploaded to the Town's secure FileShare account. When you click on the green 'Download Attachments' icon, you will be directed to that account. In order to access, you will be required to enter your name, Company Name, and email address for verification purposes.
