A. Recommendations

THAT Council receive Staff Report FAF.20.075, entitled “Community Response Initiatives”;

AND THAT Council approve the Community Recovery Task Force Terms of Reference as presented;

AND THAT Council endorse the initiatives listed as initial Community Response to the Coronavirus Pandemic;

AND THAT Council formally acknowledge and provide gratitude and appreciation to the Town’s partners and stakeholders for their continued efforts in providing assistance to the community.

B. Overview

This staff report is a follow up to the March 30, 2020 Special Meeting of Council where Council approved the establishment of a Coronavirus Recovery Task Force.

C. Background

Through consultation with Mayor Soever and Councillors Bordignon and Sampson, Town staff created a Draft Terms of Reference for the Community Recovery Task Force for Council consideration and approval (Attachment 1).

During discussions with the approved Council representatives and Town staff, a series of initiatives were identified. Further operational review and logistics including funding allocations have rolled out the following projects for implementation as early as this week:

- **Virtual Experiences**

  Development of a web-based platform to showcase unique local experiences to residents and visitors from the comfort of their home by using high-quality virtual content.
• **Municipal Landfill Site**  
  Reopening of the Town’s landfill site for public access is a priority. Staff continue to work hard to develop a plan to allow the Town’s landfill site to be re-opened to the public in a manner that will ensure safe social distancing practices. Further communication will be released to our residents that will provide clear operational details at the landfill site.

• **Curbside Yard Waste Collection**  
  Town staff understand that as nicer weather arrives and spring conditions provide our residents the opportunity to complete yard work, curbside yard waste collection will be a concern for residents. Town staff are actively working with our curbside collection contractor to initiate leaf and yard collection earlier than planned. Management will be implementing a program to assist in providing curbside yard waste collection on specific identified weekdays.

D. **Analysis**

The Community Recovery Task Force has responded quickly in developing a draft Terms of Reference and have meet electronically with key stakeholders within the community to listen, receive critical information, and to understand more about the variety of needs throughout the community.

The draft Terms of Reference provides a list of advisory participants who staff believe need to be actively consulted to ensure the entire community, including stakeholders, have a platform and forum to be heard.

It is anticipated that additional participants will be identified throughout the process as the provision of a fulsome list during these unprecedented times cannot expected. It should also be noted that some currently identified participants may choose not to participate.

The draft Terms of Reference allows for quick action and response from the Task Force. Council Representation identified very early the need for the Task Force to have the flexibility to meet on an “as required” basis was critical.

Town staff continue to consider innovative and creative means of meeting the needs of the community. Our ongoing commitment to improving communications remains our top priority.

Council has been extremely supportive and have provided excellent leadership and resources to assist staff in considering initiatives. Staff feel very supported as we consider additional means to assist the community as we navigate the COVID-19 pandemic together.

E. **Corporate Strategic Plan**

Goal #1: Create Opportunities for Sustainability  
Objective #1 Retain Existing Business
F. Environmental Impacts

Ensuring environmentally sustainable practices are maintained were possible.

G. Financial Impact

All COVID-19 related activities and resources are tracked by management staff and Financial Services for future reporting.
