PREAMBLE

These pages explain the purpose of this Zoning By-law and how it should be used. These pages do not form part of the Zoning By-law passed by Council and are intended only to make the Zoning By-law more understandable and easier to reference.

1.0 PURPOSE OF THIS ZONING BY-LAW

The purpose of this Zoning By-law is to implement the policies of the Town of The Blue Mountains Official Plan. The Official Plan contains general policies that affect the use of land throughout the Town. These policies specify where certain land uses are permitted and, in some instances, specify what regulations should apply to the development of certain lands.

The Official Plan is a general document that is not intended to regulate every aspect of the built-form on a lot. In the Province of Ontario, this is the role of the Zoning By-law. Once an Official Plan is in effect, any Zoning By-law passed by Council must conform to the Official Plan. For example, if the Official Plan stated that lands in the vicinity of a significant natural feature are to remain in their natural state, the Zoning By-law would prohibit the erection of buildings or structures on those lands. A Zoning By-law can also specifically permit certain uses of land, such as retail stores in a downtown area.

It is noted that a portion of the Town is located within the Niagara Escarpment Plan Area and is administered through Niagara Escarpment Development Control by the Niagara Escarpment Commission. Any enquiries regarding development requirements on lands that are subject to Niagara Escarpment Development Control should be directed to the Niagara Escarpment Commission at:

2.0 HOW TO USE THIS BY-LAW

In order to reference this By-law most easily, a property owner should follow each of the steps listed below to determine what provisions apply to their particular property.

A. Locate the Property on a Map

Maps in a Zoning By-law are called 'Schedule(s)'. The first step to using this By-law is to refer to the Zone Schedule(s) that are contained at the

back of the By-law to determine in which Zone category or categories your property is located.

The Zone category will be indicated on the Schedule(s) by a symbol or abbreviation. For example, you may see a symbol such as “C1” that applies to your property. This would indicate that your property is within the ‘Village Commercial (C1) Zone’. The Zone symbols or abbreviations are identified on the first page of Part 2.0 (Establishment of Zones) of the By-law.

Part 2.0 (Establishment of Zones) also provides assistance to help you identify the Zone boundaries on the Schedule(s). For example, if your property appears close to a Zone boundary and you are not sure how to determine exactly where that boundary is located, refer to Section 2.4 (Determining Zone Boundaries) of the By-law.

It is noted that in addition to the By-law itself, there may be other requirements of the Town in other By-laws that may have an impact on how a property can be used. For example, while this By-law may permit a certain use, other Town By-laws may also require that the use be licensed. There are also Provincial requirements to consider, particularly if a property is located near a Provincial highway. Permits may also be required in some cases from the Grey Sauble Conservation Authority or the Nottawasaga Valley Conservation Authority. For information on what requirements may exist for your property, please do not hesitate to contact the Town’s Zoning Coordinator for assistance at zoninginfo@thebluemountains.ca

B. By-law Amendments, Minor Variances and Exceptions

A Zoning By-law is not a static document; it is amended over time as demands and policies governing land use change. By-laws are commonly amended to change the zone to provide for a specific use or to prohibit a certain use. In some cases, special provisions are applied to a property or a series of properties that vary the zone provisions for that property. This type of variance is called an exception and exceptions to the By-law are contained within Part 9.0 (Exceptions).

You should also verify that your property is not the subject of an earlier Zoning By-law amendment or Minor Variance. Some of these amendments are identified in the Zone Schedule(s) and listed in Part 9.0 (Exceptions), Part 10.0 (Holding Provisions) and Part 11.0 (Temporary Uses) of this By-law. More recent amendments may not be included in the version of the By-law that is available at the time of review, while Minor Variances are not included in the By-law at all.

C. Permitted Uses and Zone Standards

The next step to using this By-law is to determine what uses are permitted on your property. Parts 6.0, 7.0 and 8.0 of the By-law identify the permitted uses for each Zone in the Town. The definitions in Part 3.0 (Definitions) can assist you if you are not sure of the nature of a use or how it has been defined for the purposes of this By-law.

Words that are defined in Part 3.0 are *italicized* throughout the By-law. If a word is not *italicized* it is not specifically defined.

Uses that are not identified as permitted uses within a particular Zone are not permitted in that specific Zone. It is noted that there are five Residential One (R1) sub-zones with varying lot frontages, areas and yard setbacks to reflect existing lots and provide for future residential neighbourhoods in the Town.

The next step is to determine what standards may apply to the uses on your property. Parts 6.0, 7.0 and 8.0 of the By-law identify the Standards for each Zone including minimum lot area, minimum frontage, minimum yards, maximum lot coverage for buildings, and the maximum permitted height of buildings.

D. General Provisions

Now that you are aware of the uses permitted on your property and the specific Zone Standards that apply to those uses, reference should be made to Part 4.0 (General Provisions) of this By-law. Part 4.0 contains a more generic set of standards known as 'General Provisions' that apply to all properties in all Zones throughout the Town. For example, the general provisions contain standards that regulate the construction of accessory structures, height exceptions and non-conforming/non-complying uses that apply to all properties regardless of where in the Town a property is located.

E. Parking and Loading

There is an additional section of the By-law that should be consulted when determining what provisions apply to your specific property. Part 5.0 (Parking and Loading) provides the parking and loading requirements for all permitted uses in the Town. If you are considering constructing a new use, changing the use, changing the location of parking and loading areas, or adding a new use to your property, you should review Part 5.0 to ensure that you are aware of the parking and loading requirements for the proposed use.

F. Exceptions, Holding Zones, Temporary Uses and Interim Control By-laws

Parts 9.0, 10.0, 11.0 and 12.0 contain specific requirements that may apply to your property. Lands subject to an exception covered in Part 9.0 (Exceptions) have specific use permissions or zone provisions that have been applied either in response to a landowner request or if there is a public interest objective in applying different rules on a property and/or in an area. The provisions within an exception section are intended to take precedence over any other provision in the By-law. Lands subject to an exception will be specifically identified on the Schedule(s) with the exception number identified after the parent zone symbol.

Part 10.0 (Holding Provisions) contains specific requirements that describe what conditions need to be met in order to develop/establish permitted uses on a property. Lands subject to an exception will be specifically identified on the Schedule(s) with the use of a (-h) symbol followed by the Holding provision number.

Part 11.0 (Temporary Uses) identifies those properties that are subject to use permissions that only last for a specified period of time. Lands subject to an exception will be specifically identified on the Schedule(s) with the use of a (-t) symbol followed by the Temporary Use number.

Council may pass a By-law pursuant to Section 36 of the Planning Act, as amended to remove the Holding “-h” Symbol, thereby placing the lands in the *zone* indicated by the *zone* symbol, when all of the applicable requirements have been met. For the purposes of this By-law, a number of distinct holding provisions have been applied as set out in Section 10.3 for area specific holding provisions and **Table 10.1**, below.

The Holding (h1) may be lifted if a Development Permit and/or exemption has been obtained from the Grey Sauble Conservation Authority, Nottawasaga Valley Conservation Authority, an approval has been obtained from the Grey Sauble Conservation Authority or Nottawasaga Valley Conservation Authority, and provided the proposed development will not have a negative impact on the wetland and its associated ecological functions.

Any development application that requires a *building* permit within the area shown as subject to this Hold shall be required to submit this assessment, with the following exceptions:

1. Reconstruction or replacement of existing *dwellings*; and,

2. Additions and alterations to existing *dwellings* provided that the additions or alterations are not located closer to the feature than the existing dwelling.

The Holding (h3) provision applying to closed or open landfill sites, as identified in the Official Plan, may be lifted once a study has been prepared by a qualified engineer and submitted for review in accordance with the Ministry of the Environment, Conservation and Parks Guideline D-4, indicating that the lands to be developed are secure from potential methane gas and/or leachate migration from the landfill site or what remedial measures or conditions are required prior to any development approval being granted.

This provision applies to lands within defined assessment areas from the fill area of a closed *waste disposal site* identified in Environmental Impact Studies prepared in July 2010 for the Thornbury Closed Landfill site and Clarksburg Closed Landfill site. This Hold will be lifted upon receipt of an assessment report prepared by a qualified engineer in accordance with Guideline D-4 (April 1994) of the Province of Ontario or its successor.
