J. New and Unfinished Business

J.1 Grey County Council Update (AS, RP)

Mayor Soever noted that, through Grey County, he participated in two deputations at the recent virtual AMO Conference, one with the Ministry of Transportation regarding regional integrated transportation strategy. Mayor Soever noted there are two areas of concern, being Highway 26, and the Highway 6 and 10 corridors. Mayor Soever noted that there is an MTO Regional Boundary that runs between Simcoe and Grey County, with The Blue Mountains in the Southwest District. Mayor Soever noted that most of the traffic is coming from the Greater Toronto Area. Mayor Soever noted that traffic crosses the boundary of the Central Region, further noting there is no integration of transportation strategies and no integration between the different levels of government. Mayor Soever noted that GPS and Google maps directs visitors to routes that are the fastest or shortest, which then moves traffic interchangeably from provincial roads to local roads, including gravel roads. Clearview Township has expressed concern with the volume of traffic coming into The Blue Mountains using their 10th Line, which is a gravel road. Mayor Soever noted that we need to adapt our transportation strategy to integrate the provincial highways, regional county roads and our municipal roads and have a true transportation network. Discussion about intersection improvements and roundabouts were discussed for Highway 26 and Highways 6 and 10.

Mayor Soever noted that the second Grey County delegation at AMO was regarding rural broadband, with a heavy emphasis on SWIFT. Most municipalities feel that SWIFT is a good start, but that SWIFT does not do enough in the rural areas and needs to be augmented by local, other initiatives from other governments. Mayor Soever noted that The Blue Mountains is working on this through our RABIT task force, which is lead by Deputy Mayor Potter.

Deputy Mayor Potter spoke noting that the Blue Mountain Ratepayers Association correspondence was considered at Grey County, further noting that it was apparent to both the Mayor and Deputy Mayor that Grey County does not understand issues in The Blue Mountains and the number of visitors to The Blue Mountains. Deputy Mayor Potter noted that there is a need for comprehensive data when we approach the County.

Deputy Mayor Potter noted that he attended the Friday virtual meeting with Dr. Arra, the Medical Officer of Health, with County Council. County staff advised that long term care homes are facing a shortage of staff, as they have lost staff and they can no longer double-up. There are County staff that fill in, but if they are not a trained nurse, there is only so much they can do. There are some staff available from hospitals, which the Medical Officer of Health can help with, but the Grey County Nursing Director of Long Term Care, has put out the word that they require more staff. Anyone looking for a job in that field, please contact Grey County Long Term Care.

Deputy Mayor Potter noted that the discussion with Dr. Arra also included outdoor winter events, and whether they would be permitted or not. Dr. Arra noted that we will have to wait and see how the virus is going whether there will be a second wave, while considering there could also be an influx of influenza in the fall and winter. The Health Unit continues to work with the farmers and the seasonal workers.

J.2 Notice of Motion (Council)
