

## **Joint Municipal Physician Recruitment and Retention Committee - Key Messaging**

The Town of The Blue Mountains' has a very urgent need to recruit and retain Family Physicians:

- We as a community need to make The Town of The Blue Mountains 'Physicians' Rural Community of Choice'
- It takes a community to recruit a Family Physician and their family, partner etc.
- Recruit 5+ Family Physicians for:
  - 5 Doctors for Community growth and upcoming retirements
  - 1 - 2 Family Physicians for orphaned patients
  - Additional long term care (nursing home beds) needs a Family Physician on call 24/7
  - PLUS for every 500 new dwellings, 1.5 Family Physicians are needed, development charges do not support the recruitment of new physician
  - Family Physicians' practices have averaging a size of 2-3,000 patients, however, now are averaging 1,000 patients
- Support our local Family Physicians' key leadership role in supporting Family Physician residents and medical students in experiencing rural medicine in our community
- Active engagement of our stakeholders
- Competition from neighbouring areas is 'Fierce'

### **Importance of Family Physicians**

1. Family Physicians provide day-to-day healthcare.
2. Act as the first contact and principal point of continuing care for patients within our healthcare system, and coordinates secondary specialist care their patients may need.
3. One in five Emergency Department visits occur from lack of access to a Family Physician

### **Definitions:**

**CaRMS:** The Canadian Resident Matching Service is a national, independent, not-for-profit, fee-for-service organization that provides a fair, objective and transparent application and matching service for medical residency training across all provinces in Canada.

**CASPR:** The Canadian Association of Staff Physician Recruiters is a professional organization from across Canada whose members primary role is to recruit physicians for their communities, local hospitals and other healthcare organizations.

## **Enhanced Fee-For-Service Models:**

**The Comprehensive Care Model and Family Health Group** model physicians are compensated primarily through FFS but are also eligible for specific bonuses and premiums based on patient enrolment.

**Comprehensive Care Model (CCM):** is for solo physicians who commit to provide comprehensive primary health care and a block of after-hours services each week to their enrolled patients.

**Family Health Organization (FHO):** Is a fee for service primary care payment model

**Family Health Team (FHT):** Family Health Teams are primary health care organizations that include a team of family physicians, nurse practitioners, registered nurses, social workers, dietitians, and other professionals who work together to provide primary health care for their community. They ensure that people receive the care they need in their communities, as each team is set-up based on local health and community needs.
