RE: Drake's Path Substantial Performance Upcoming

Dear Resident,

This letter has been sent to inform you that Substantial Performance of the Drake's Path Wastewater Servicing Extension project is approximately two weeks away. Substantial Performance is a project milestone outlined in the Construction Act indicating the construction contract requirements have been fulfilled and the work is ready for use.

As previously indicated, the Town's Building Department will now begin accepting submissions of completed Site Servicing Permit applications. This permit allows for the decommissioning of your existing septic system, and the installation of your new sanitary sewer connection.

If you have not already obtained them, please remember that you will need to obtain locates for your property from Ontario 1 Call prior to beginning any work. Ontario 1 Call can be contacted at 1-800-400-2255 or on the web at <https://www.ontarioonecall.ca/>.

Once Substantial Performance has been reached, property owners will have 11 months to connect to the system before the Town will begin to bill for a bi-monthly Unconnected Sewer Rate fee as defined in the current Water Charges and Sewer Charges By-law.

For more information related to the permitting process, please contact:

Town of The Blue Mountains

Building Department
