

NOTICE OF CONSTRUCTION ACTIVITIES

PARKBRIDGE CRAIGLEITH CIVIL SERVICING

Start Date: JANUARY 2023

End Date: APRIL 2023

This is a notification that **B&J Contracting** on behalf of the Developer, **Parkbridge Lifestyle Communities** will be undertaking rock blasting operations for the Parkbridge Craigleith Ridge Development.

The blasting operations will commence January 9, 2023 and will continue intermittently until April 2023, during daylight hours. Two to ten blasts are anticipated per day. Residents may experience a slight vibration when the blast occurs.

For each blast a standard blasting siren will be sounded prior to initiation and upon completion, following the procedure below;

- Following the completion of loading, matting, blasting area clearance, and positioning of guards, 3 short sirens are sounded;
- One-minute wait and a short siren is sounded;
- Blast imminent;
- Following the blast, the blaster-in-charge will inspect the blast site to ensure complete detonation of charges has taken place;
- All clear siren is sounded.

Rest assured that seismic monitoring equipment has been installed at locations on either side of the blast site to measure the vibrations and maintain the vibration levels within the acceptable guidelines.
