What is being proposed?

SJSB Network Consulting, on behalf of Bell Mobility Inc., is proposing to relocate an existing telecommunication tower on the subject lands. The proposed new tower is planned to be a 22m monopole style tower. A fenced in compound 10m x 10m in size would also be constructed at the tower base.

The geographic coordinates for the proposed site are as follows: Latitude: 44.515161, Longitude: -80.330067

The establishment of new telecommunication facilities is under the exclusive jurisdiction of the Federal Government. Innovation, Science and Economic Development (ISED) Canada is the approval authority for telecommunication towers and requires all proponents of new facilities to consult local planning authorities to ensure local protocols and surroundings are considered during the mandated site selection process. The Town of The Blue Mountains Protocol for Establishing Telecommunication Facilities requires public consultation for all new telecommunication facilities.
