From the information noted in the application for the proposed commercial/industrial development on subject parcel, it has been determined that **neither section 57 (Prohibited Activities) nor section 58 (Regulated Activities)** applies on the above-noted property, pursuant to the *Clean Water Act*, 2006.

Consequently, **no policies apply to the activities identified in the application**, under the approved Source Protection Plan for the Saugeen, Grey Sauble, Northern Bruce Peninsula Source Protection Region (effective July 1, 2016). However, it is important to note that the above property is located within the Intake Protection Zone 2 for the Thornbury Drinking Water System, where the storage and handling of fuel could be a drinking water threat. Fuel storage and handling best management practices are encouraged in these areas to protect water quality. A small portion of the property does fall within a Significant Groundwater Recharge Area, therefore low-impact development/infrastructure is recommended.

If any activities or operations on this property change, please contact this office. If you have any questions, please contact this office (519-470-3000 or toll-free 1-877-470-3001) or via email at c.seider@greysauble.on.ca.
