Integrity Commissioner Bulletin - Election Year Activities FAQ

2026 is a municipal election year. Candidates can first register their candidacy and begin campaigning on May 1st, with the goal of winning office after the ballots are counted on October 26th, Voting Day.

This election FAQ is written to provide incumbent members of Council and members of the Town's Local Boards (collectively, "Members") with guidance on how the Code of Conduct for Members of Council, Local Boards and Advisory Committees (the "Code") applies as they carry out their duties for the Town, while engaging in election-year activities. Though it provides similar guidance for when provincial or federal elections or leadership campaigns are being held, the focus is on municipal elections.

An underlying principle of the Code is that Members will conduct themselves in a manner that promotes public confidence and will bear close public scrutiny. A campaign period is a time of heightened scrutiny upon everyone involved in an election. Members are advised to transparently and clearly establish a separation between their election-related activities and their private activities and to avoid any use of Town resources to support election-related activities in contravention of the Code. As always the Integrity Commissioner is available as a confidential resource and Members are urged to take advantage of this by seeking advice whenever they have a concern about their work as Members when engaging in activities as candidates or in support of election campaigns.

FAQs

Q. Can the Town participate in election activities?

A. The Town Clerk is responsible for administering the municipal election, and the Town supports that effort in a variety of ways. The Town however is prohibited from in any way contributing to election campaigns, which is in part the reason for distributing this FAQ.

Q. Can a Member endorse a political candidate?

A. It is recognized that while Members are political representatives, they are also private citizens. Accordingly, Members may in their capacity as private citizens choose to endorse political parties and candidates. Members must take care to clarify that they do so as a private individuals and must not be seen as using their office to endorse political candidates for election. In order to preserve the public trust and the integrity in the elections process, Members should make every effort to separate their work and activities as Town elected and appointed officials from activities in support of municipal, provincial or federal election candidates. Endorsements may not be made on Town property or by using Town resources.

Principles

Integrity

Q. Can a candidate distribute materials, signs, pamphlets or buttons on Town property?

A. All candidates are prohibited from election activities on Town property, including distribution of election related signs, pamphlets or buttons, as well as the use of Town resources for any election-related product or activity.

Q. Can Town staff lend support to a Member's campaign?

A. Members cannot use the services of any Town staff (during hours in which those persons receive any compensation from the Town) to assist in any communication activity related to the promotion of a candidate, or the preparation or distribution of election related materials or events. Provided they do not identify themselves as a Town employee, or use Town resources as they do so, staff can support a Member's campaign as a private citizen. For employees whose prominence makes it impossible to not be identified as Town staff, and whose positions require a perception of absolute neutrality (such as the Town Clerk and the CAO), clarification should be sought from the CAO.

Q. Can Members establish or use existing social media or other electronic media for campaign purpose?

A. Personal social media accounts for election activity cannot be created or supported using Town resources. Members (including their staff) are prohibited from using content, including pictures, videos or audio recordings created by Town staff and volunteers or by using Town equipment, for any election activity. The officially published record of Council decisions is, however, available for use.

Q. Can Members use their Town-issued equipment to support campaign activities or a candidate?

A. Members are prohibited from using their Town office or information technology resources (e.g., cell phones, tablets, computers, fax) for election activities. As soon as they recognize that an incoming call or message on a Town device is campaign related, they must politely end the communication and continue it on their personal or campaign device.

Members may not use Town stationary, printing or photocopying resources and other Town materials for election activities.

Members may not use the Town's email/voice mail system to record, distribute or disseminate election activity messages or correspondence.

Q. Can Members use previously collected constituent information for election purposes?

A. Members must not use contact information gathered for responding to constituent inquiries for any purposes related to an election campaign, nor for any purpose other than the one for which the information was provided to the member.

Q. In an election year, can a Member use or distribute pictures, videos or audio recordings showing them with sitting elected officials (including Members of Parliament, Members of Provincial Parliament, other Town Councillors, School Board Trustees) as part of continuation of normal business of an elected official?

A. Yes, images, videos, and audio recordings which include other elected officials may be distributed through social media channels, emails, or newsletters, provided the activity or event is related to fulfilling official business and is not for any election related activity.

Principles *Integrity*

Q. Can Members carry out their usual constituent-facing activities through an election campaign period?

A. Yes, Members may continue to update their constituents on Town projects and intergovernmental initiatives in the normal course. A rule of thumb test is whether the same activity was carried out in other years of the term.

Q. Can a Member send out newsletters during the municipal election period?

A. Yes, as long as the newsletter content does not announce or illustrate the Member's intention to run for election or the announcement of a candidate in the election, or otherwise contains campaign content. Newsletters outlining regular Town business are permitted.

Q. Can the Town logo be used in campaign materials?

A. The Town logo must not be used in a way that associates it with a candidate or campaign, unless it appears on in a publicly available photograph downloaded from the Town's official website. The incidental appearance of the logo in the background of a photograph (such as on a Town vehicle in a public location) will be assessed on a case-by-case basis, and so prior approval should be sought from the Integrity Commissioner.

Q. Are there specific rules around the use of a Member's social media sites?

A. Members must be mindful of how they use various social media sites. If a social media account is used as a Member's regular social media page, posts should not contain any campaign related information. Whether a social media account is paid for with Town funds or personal funds, Members are cautioned to not upload to the site such things as links to other social media that contains campaign content, or overtly campaign-related messaging.

For the purposes of a campaign, the Town's public website is available to any member of the public, including election candidates. Any information that can be downloaded publicly from the Town's website may be linked to a candidate running for election on their campaign website, including photographs, if not protected by copyright. A Member will not be found to have breached the Code if they use publicly available photographs for an election candidate purpose. For clarity, images stored on Town-funded devices and/or Town servers (and not publicly available on the Town's public website) cannot be linked or uploaded to campaign websites or forwarded to campaign staff.

Regardless of the ownership of a social media site members may not use their office, which includes their official title, to promote any candidate or political party in any municipal, provincial, or federal election, including leadership campaigns.
