

Craigleith Community Park

Site and Process

Town of the Blue Mountains has acquired six hectares of parkland in Craigleith. This land was gained through the parkland dedication included within development agreements. The intent is to transform the land into a community park for all to enjoy.

The Town is now looking for feedback on two preliminary design concepts for the site. Your feedback on the concepts will assist with selecting the preferred approach and will inform the details, programming and layout of the final design.

Craigleith Community Park

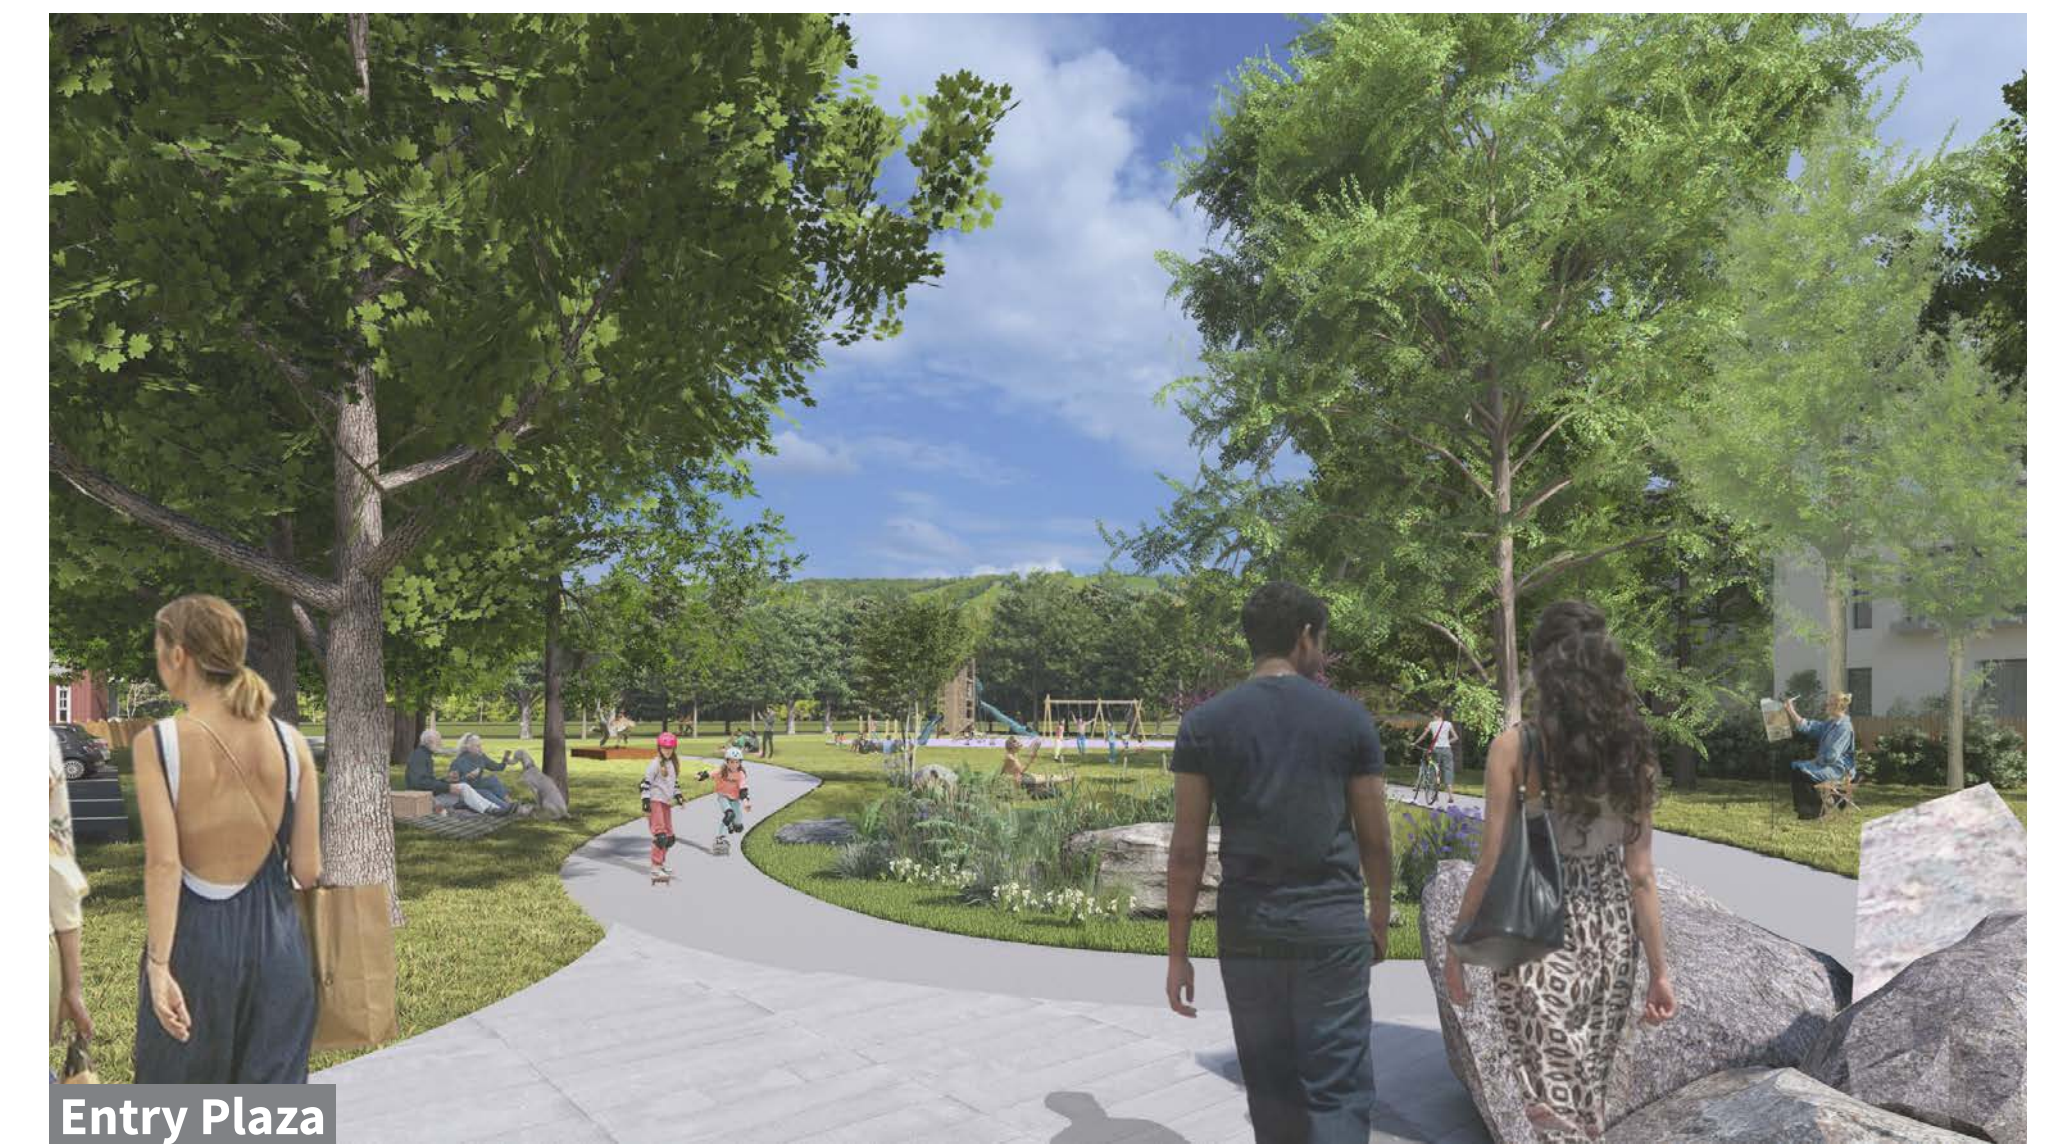

Concept 1

The concepts shown are preliminary and demonstrate the general program. Your feedback during this phase of public engagement will inform the refined concept design.

Craigleith Community Park

Concept 2

The concepts shown are preliminary and demonstrate the general program. Your feedback during this phase of public engagement will inform the refined concept design.
