

Dear Residents,

Please be advised that as part of the Bay St Reconstruction Project, there will be **two** temporary water service interruptions scheduled. One to transfer your water service over to the **temporary watermain**. This will be connected to the hose faucet on your residence.

If you have a frost proof hose faucet this will need to be converted over to a regular one which will be done by a licenced plumber, then converted back when the temporary watermain is decommissioned. The plumber may need access to your home to do so and will be free of charge.

- **Date: Monday June 1st 2026 Time: 8:00 AM to 5:00 PM**

A **separate** water outage will take place for a watermain connection:

- **Date: Wednesday June 3rd 2026 Time: 8:00 AM to 5:00 PM**

During these times, water service may be unavailable, or you may experience reduced pressure. We recommend that you plan accordingly by storing sufficient water for your daily needs prior to the scheduled interruptions. We apologize for any inconvenience this may cause and appreciate your patience as we work to improve the infrastructure in your area. **If this work is not to proceed you will be notified Monday morning.**
