

Community Information Session

Thornbury Wastewater Treatment Plant

Treated Effluent Outfall Pipe Installation

The Town of The Blue Mountains is holding a Community Information Session to provide an overview and update on the installation of the new treated effluent outfall pipe for the Thornbury Wastewater Treatment Plant. The Town's engineering consultant, Arcadis, will be giving a presentation outlining the outfall installation process and the planned site restoration activities. Time will be held for a Question & Answer Session at the end of the meeting.

Project Background

The Town is upgrading the Thornbury Wastewater Treatment Plant Outfall Pipe to allow the plant to meet its full capacity. This outfall will be installed from the Treatment Plant to the shoreline within the Grey Street road allowance. It will then extend off the north end of the Grey Street road allowance, and run 1.5 km into Georgian Bay. The pipe has been assembled in segments at Lora Bay Park, and will be floated in Lora Bay until final assembly can be completed.

How Do I Get More Information?

A dedicated project web page is available on the Town's website at:
www.thebluemountains.ca/LBP-Outfall

This notice was originally issued on August 17, 2026.

Contact Information

Project Timeline

Construction

Completion anticipated prior to September 30, 2026

Meeting Information

All those interested in the project are invited to attend the Community Information Session. The event will include a presentation and Q&A session. The meeting will be recorded and posted to the project page for anyone unable to attend in person. If you are unable to attend the meeting in person, but have questions that you would like asked on your behalf during the Q&A, please email them to communications@thebluemountains.ca.

Date: Friday, August 28, 2026

Time: 1-2 p.m.

Location: Town Hall, 32 Mill Street, Thornbury
