

Municipal Infrastructure Project

Construction Notice

Mill Street Sewage Pumping Station Upgrades

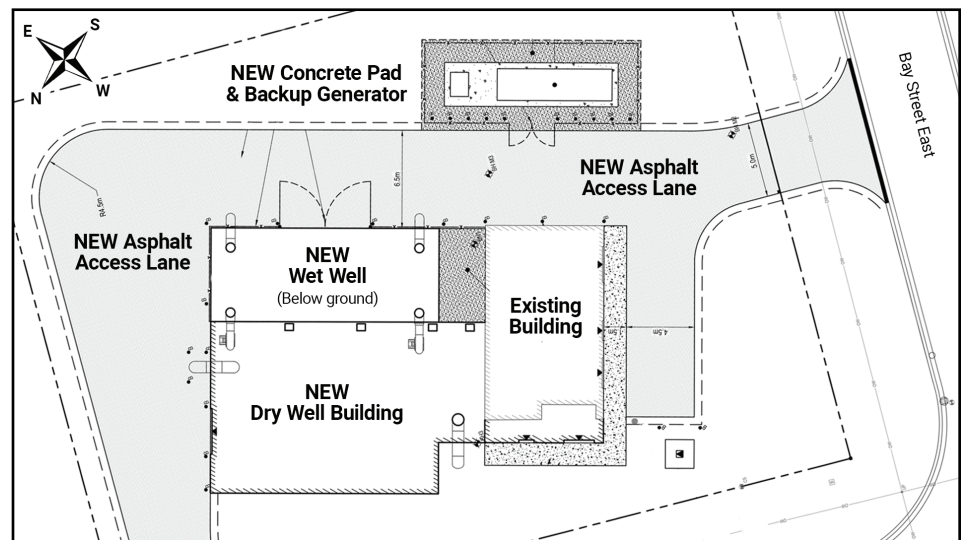

Contract: 2026-05-T-OPS

Start Date: October 2026 (est.)

End Date: February 2028 (est.)

On behalf of the Town of The Blue Mountains, WT Infrastructure Inc. has completed the design and engineering for construction of upgrades at the Mill Street Sewage Pumping Station.

The project has been tendered and the construction contract has been awarded to Industra Construction Corp. Mobilization is expected to begin in October 2026. Construction activity will be occurring on town-owned land at 18 Bay Street East.

Project Scope

- Temporary bypass pumping of incoming wastewater
- Removal and disposal of existing electrical and mechanical equipment
- General refurbishments and renovations of the existing building
- Construction of a pump station building extension connected to the existing building
- Construction of a new wet well, and expansion of existing dry well
- Construction/installation of all new electrical and mechanical components
- Construction of new asphalt access lane
- Site restoration

What To Expect

You may experience dust, noise, vibrations, odours and other inconveniences as a result of construction. The Town will work with the contractor to reduce these impacts where possible by maintaining standard working hours and providing written notice of planned service interruptions or restrictions. We appreciate your patience throughout the project.

Works will be occurring within Town property. Should you have any concerns during construction, please contact the Contract Administrator.

Work Hours

Work will generally take place Monday to Friday from 7:00 a.m. to 5:00 p.m.

Service Interruptions

There are no service interruptions expected as a part of this project. If any planned interruptions are required, impacted residents will be notified in advance.

Traffic Management

Minor traffic delays may occur around the construction zone during certain phases of the work. Longer delays or closures may occur when restoration work is taking place.

Restoration

The construction work area will be restored following construction in accordance with the design drawings. Laying of sod and/or seeding will be done as needed during ideal growing seasons only.
